

Ecostart

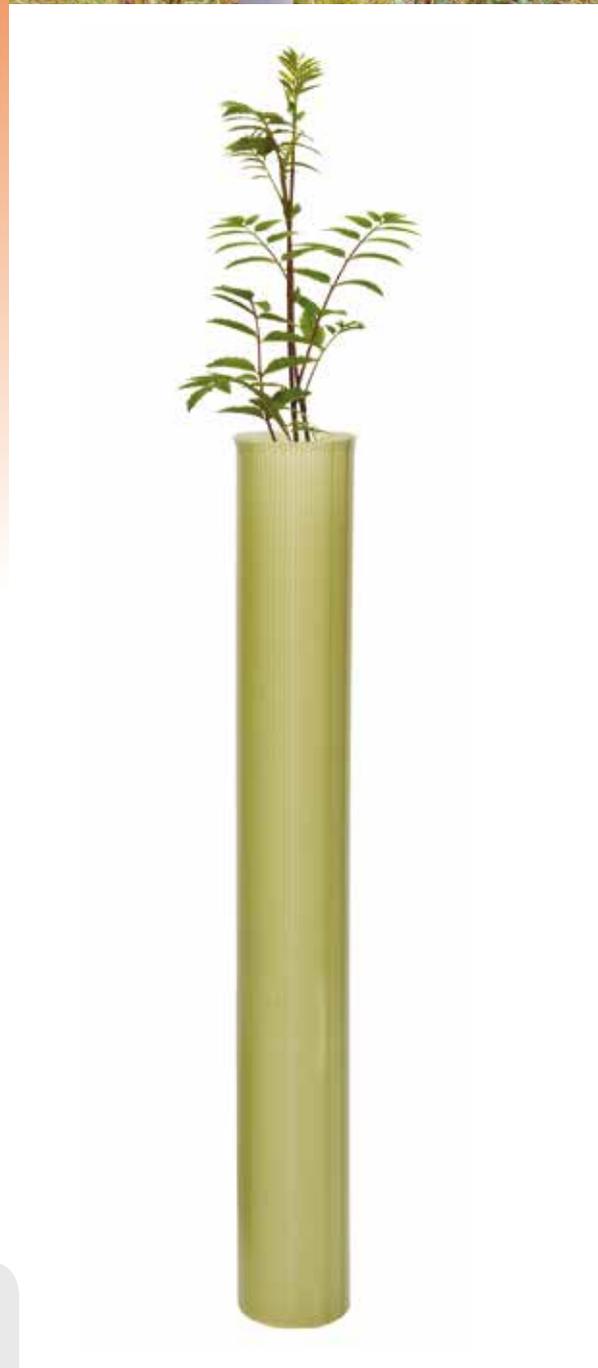

TUBEX Ecostart, our economic solution to reliable plant protection and enhanced growth, where the main focus is the initial establishment period.

TUBEX Ecostart is designed to last a minimum of 3 years*, boosting the chances of survival and healthy growth through the first initial stages of the tree's life. Lower UV stabiliser and smaller diameters allows the shelter to breakdown earlier, making it suitable for small slender plants used in hedging and small scale landscaping.

*shelter longevity is dependent on site and weather conditions but is typically 3+ years

PRODUCTS	ECOSTART
Heights (m)	0.6, 0.75
Diameter (mm)	57 - 73
Nest	3
Bundles	150
Colour	Green
Ties	1 x 8" on 0.6m 2 x 8" on 0.75m
Support	Stake

- Shelter longevity is dependent on site and weather conditions and can vary considerably.

Overview of our product range

TUBEX shelters have been specially designed to provide the right solution for your planting needs. Over the years we have developed unique features that all contribute to the effective establishment of trees.

Features of shelters:

 <p>Laserline, designed to split avoiding strangulation as plant grows</p>	 <p>Nested for ease of transport and storage, whilst maintaining original shape</p>	 <p>Flared rim to minimise stem abrasion</p>
 <p>Pre fitted thumb releasable ties for quick, easy installation and maintenance</p>	 <p>Twin wall construction for rigidity and best strength to weight ratio</p>	 <p>UV stabilised polypropylene to provide minimum 5 year protection</p>
 <p>Laserline, designed to split avoiding strangulation as plant grows</p>	 <p>Optional extras include punched holes for ventilation</p>	 <p>Renewable material source and greater flexibility over degradation</p>

Features of mesh range:

 <p>Pre fitted thumb releasable ties for quick, easy installation and maintenance</p>	 <p>UV stabilised and made from recycled plastic to provide minimum 7 year protection</p>	 <p>Flared rim to minimise stem abrasion</p>
 <p>Nested for ease of transport and storage, whilst maintaining original shape</p>	 <p>Weld line and flared rim splits avoiding strangulation as plant grows</p>	

- Shelter longevity is dependent on site and weather conditions and can vary considerably.
