

Standard Vine

A high quality vineshelter, the TUBEX Standard Vine improves vine establishment and has pre-inserted ties for those situations where staking is required.

Reliable and strong, the TUBEX Standard Vine provides an improved growing environment resulting in strong early growth, higher survival rates, and uniform growth. The TUBEX Standard Vine also provides protection against animal browsing, accidental herbicide drift and damage from mechanical weeding. Pre-inserted ties are fitted for attachment to a stake, cane or metal rod providing strength and ease of installation.

For larger leaved vines or higher trellising consider using TUBEX Vine Original.

*Vineshelter longevity is dependent on site and weather conditions but is typically a minimum 5 years.

PRODUCTS	STANDARD VINE
Heights (m)	0.4, 0.5, 0.6
Diameter (mm)	73 - 105
Nest	5
Bundles	100
Colour	Green
Ties	1 x 9 inch
Support	Stake / cane / metal rod

- Shelter longevity is dependent on site and weather conditions and can vary considerably.

Overview of Vineshelters

TUBEX vineshelters have been specially designed to provide the right solution for your planting needs. Over the years we have developed unique features that all contribute to the effective establishment of vines and fruit trees.

Features of vineshelters:

 <p>Laserline, designed to split avoiding strangulation as plant grows</p>	 <p>Nested for ease of transport and storage, whilst maintaining original shape</p>	 <p>Flared rim to minimise stem abrasion</p>
 <p>Pre fitted thumb releasable ties for quick, easy installation and maintenance</p>	 <p>Twin wall construction for rigidity and best strength to weight ratio</p>	 <p>UV stabilised polypropylene to provide minimum 2 year protection</p>
 <p>Top holes, allows attachment to trellis wire</p>	 <p>Wrap splits vertically, expanding as tree grows</p>	 <p>Strengthening rods at stake area to prevent tearing of the vineshelter</p>

Features of mesh range:

 <p>Pre fitted thumb releasable ties for quick, easy installation and maintenance</p>	 <p>UV stabilised and made from recycled plastic to provide minimum 7 year protection</p>	 <p>Flared rim to minimise stem abrasion</p>
 <p>Nested for ease of transport and storage, whilst maintaining original shape</p>	 <p>Weld line and flared rim splits avoiding strangulation as plant grows</p>	

- Shelter longevity is dependent on site and weather conditions and can vary considerably.
